Almoayyed Computers recognized as 2015 Microsoft Country Partner of the Year

Microsoft announced that Almoayyed Computers has won the 'Microsoft Country Partner of the Year 2015 Award' for the Kingdom of Bahrain'.

Awards were presented in several categories, with winners chosen from a set of more than 2,300 entrants from 108 different countries worldwide. Almoayyed Computers was honored among a global field of top Microsoft partners for demonstrating excellence in innovation and implementation of customer solutions based on Microsoft technology.

"This award directly recognizes the great efforts we have been doing in providing our customers a unique experience while delivering successful software projects in an innovative way. I'm very proud of everyone in Almoayyed Computers' team that contributed in this achievement" said Mohammed Farouk Almoayyed, Vice Chairman and MD of Almoayyed International Group.

ALMOAYYED Commercial Services has received "Outward Award of Excellence for 2014" recognition from Konica Minolta. This prestigious award is given based on total number of Technical staff achieving higher level of certification in the ongoing certification program conducted by Konica Minolta world wide support team.

Almoayyed Trading and Contracting and Netherland based firm KAAL Masten BV member of Hakpark, a Dutch family owned group of infrastructure companies has signed a MOU for promoting solar based Street Mast in Bahrain.

The solar powered street mast in combination with LED lighting and durable battery systems present an attractive proposition for Standalone lighting systems and do not need electricity, cables and road cutting.

The sprit solar masts are available from 5 mtrs to 15 mtrs height range with Single or Dual Light fixtures depends on the lighting requirement.

ATC signs partnership agreement with H.Ikeuchi & Co. Ltd, Japan

Almoayyed Trading & Contracting has signed a partnership agreement with H.Ikeuchi & Co.Ltd "The Fog Engineer" - Japan for Low Energy Cooling System.

It is an effective method of cooling large or semi scale closed spaces being difficult to cool by conventional ways of air conditioning. Due to its Semi- Dry Fog system it reduce the temperatures with evaporative cooling by 3-5°C. Powerful large fan delivers the cooled air to reduce temperatures in large space. The system can install easily where power supply and tap water is available.

H.Ikeuchi & Co. Ltd demonstrated their products during Gulf Industry Fair exhibition along with Almoayyed Trading & Contracting.
