Giving Back to Society

As a part of its EMBRACE initiative, Almoayyed International Group (AIG) has renovated the Physiotherapy Unit for Children with Cerebral Palsy Center and named it "**Farouk Almoayyed's Physiotherapy Unit for Children with Cerebral Palsy**" in honor of group's Founder and Honorary Chairman and his continued support and commitment to the Kingdom's social responsibility initiatives. The center was officially inaugurated by His Excellency Labour and Social Development Minister Mr. Jameel Bin Mohammed Ali Humaidan along with Almoayyed International Group Founder and Honorary Chairman Mr. Farouk Yousif Almoayyed, group's board members and other distinguished guests on 18th January 2017 at Adliya. The Center aims to support preventative initiatives while providing a world class facility that improves the quality of life of Cerebral Palsy sufferers and their families.

His Excellency Labour and Social Development Minister Mr. Jameel Bin Mohammed Ali Humaidan honoured Mr. Farouk Yousif Almoayyed, Mr. Mohammed Almoayyed & Mrs. Hala Almoayyed during the opening of the center.

MINISTER PRAISES SOLAR INITIATIVES

Almoayyed International Group's Chairman Mohammed Almoayyed visited to Dr. Abdulhussain Mirza, Minister of Electricity and Water Affairs along with company officials. Director of Sustainable Energy Unit Jehan Murbati was also present during the meeting. The minister praised the group's solar projects and its recent installation of 20kWh solar powered clean energy production system at its headquarters in Ma'meer.

The minister explained the setting up of the Sustainable Energy Unit and said the Bahraini government is encouraging investments in renewable energy along with plans and projects of companies in the field.

He added Bahrain aims to encourage the use of solar energy in Bahrain and appreciated the efforts of company officials, especially its chairman, for their willingness to offer solar panels installation to individuals and companies at competitive rates.

Mr. Almoayyed thanked the minister and officials for the welcome and the hospitality and said they were grateful for having been given an opportunity to co-operate with the authorities in implementing the latest renewable energy projects in Bahrain at a low installation and maintenance cost.

The solar panels are expected to produce 35921 KWh per year of the average lighting energy consumed by our operations. The solar system implemented in Almoayyed International Group avoids 25.0 tons of CO2 per annum which is a

great initiative to reduce our carbon foot print.

After installing solar panels with LED lights, the group has reduced its lighting load to half and the initial investment for the solar system will be recovered in six years' time period.

The 20KWh solar panel was commissioned by Almoayyed Trading & Contracting, an engineering division of AIG, which has built its regional renown by delivering state-of-the art, comprehensive and value packed engineering solutions for a wide range of market verticals.

Exhibitions & Events

The seminar was presented by Sukrit Ranjan from ATC, who explained how the rise in cost of electricity is impacting businesses and how Almoayyed's state of art Photovoltaic System & Solutions can be useful in reducing the impact. The seminar witnessed more than 50 attendees, including ministry officials, consultants, private and public company representatives.

What's On

Almoayyed International Group announced that it has successfully implemented the DocuWare Document Management Solution at its Bahrain divisions to increase efficiency of staff and boost competitiveness. .

DocuWare Document Management Solution allows staff to manage the creation, approval, distribution, archiving, storing and retrieval of all controlled documents electronically. The solution is integrated with multiple IT systems, including CRM, ERP and can instantly operate anywhere on a computer or mobile device. Thousands of paper sheets can be saved by taking this step, which translates not only to a more environmentally-friendly business model, but reduced costs as well. The system was commissioned by Almoayyed Commercial Services.

Almoayyed Fire & Safety conducted a fire mock drill for their staff at Sitra office premises. The main objective was to understand the combustion process and different fire classes, fire extinguisher types, basic operating procedures.

Vehicle Graphics are a unique solution to promote businesses, services or products, with impact and style. Almoayyed Commercial Services and Almoayyed Fire & Safety Company branded its vehicles as a part of its marketing strategy.
